- کلیه پاسخها باید در پاسخنامه علامت زده شود. پاسخ سؤالات باید با مداد مشکی نرم و پرنرنگ در بیضی مربوط علامت گذاری شود.
- لطفاً در دفترچه سؤالات و ذیل پاسخنامه، کلیه مشخصات خواسته شده را درج و امضا نمایید.
- فرایند برگزاری آزمون به شرح زیر است: در ابتدا بخش نوشتاری به مدت 20 دقیقه انجام خواهد شد. سپس بخش شنیداری و پس از آن بخش های دیگر. مدت زمان بخش شنیداری و دیگر بخش ها، 90 دقیقه می باشد. مدت زمان کل آزمون از زمان شروع بخش نوشتاری 110 دقیقه می باشد.
- این آزمون نمره منفی ندارد.
- این آزمون شامل 70 سؤال چهارگزینه ای به علاوه بخش نوشتاری می باشد. همه سؤالات بخشهای شنیداری، گرامر، واژگان و درک مطلب نمره مساوی دارند. هر سؤال 1.29 نمره از 90 دارد. بخش نوشتاری 10 نمره از 100 نمره دارد.
- نمره کلی آزمون از 100 محاسبه می شود: $70 \times 1.29 = 90 + 10 = 100$
- در بخش نوشتاری آزمون باید یکی از دو موضوع داده شده را انتخاب کرده و حدود 150 کلمه در مدت زمان 20 دقیقه درباره آن بنویسید.
- دفترچه سؤالات، بدون احتساب صفحه حاضر، 11 صفحه دارد. یک برگ پاسخنامه برای سؤالات چهارگزینه ای و یک برگ پاسخنامه بخش نوشتاری نیز داده خواهد شد. پاسخنامه اضافی نوشتاری تحویل نخواهد شد ولی در صورت نیاز می توانید از صفحه پشت پاسخنامه نوشتاری استفاده کنید.
- نمرات به صورت کارنامه، حداکثر تا 72 ساعت بعد در سایت مرکز زبان آموزی به نشانی ulc.ui.ac.ir اعلام خواهد شد.
- هرگونه نظر در خصوص آزمون و یا تذکر اشکال احتمالی را می توانید به ایمیل مرکز زبان آموزی دانشگاه اصفهان به نشانی ulc.ui.ac.ir@gmail.com ارسال فرمایید.
- به عنوان نمونه سؤال، پس از تحویل پاسخنامه، و صرفاً پس از اتمام آزمون، می توانید دفترچه سؤالات را به همراه خود ببرید.
- کلید اولیه سؤالات پس از آزمون در کانال ایتای مرکز زبان آموزی قرار می گیرد. اگر در هنگام آزمون، پاسخ هر سؤال را علاوه بر درج در پاسخنامه، در کنار هر سؤال هم بگذارید، پس از آزمون هم می توانید نمره خود را محاسبه نمایید و هم اشکالات خود را ملاحظه نمایید. این امر جنبه یادگیری هم دارد.
- قبل و بعد از آزمون، همه تلاش برای به حداکثر رساندن میزان روایی و پایایی آزمون انجام می شود. پس از آزمون نیز، تک تک سؤالات مورد بررسی قرار می گیرد و اگر سوالی دارای استانداردهای آزمون سازی نباشد حذف می شود و نمره آن به دیگر سؤالات اضافه می شود.
- 60 دوره دفترچه سؤالات، فایل صوتی و کلید آزمونهایی گذشته به صورت رایگان در سایت مرکز زبان آموزی وجود دارد. برای ایجاد انگیزه جهت مطالعه این آرشیو ارزشمند، در هر دوره آزمون، تعداد 10 سؤال از سؤالات دوره های گذشته انتخاب خواهد شد. برای دسترسی به این آرشیو، به سایت مرکز مراجعه نمایید یا از طریق لینک مستقیم b2n.ir/uiept_archive دانلود نمایید.
- جهت اطمینان از عدم به همراه داشتن هر گونه وسیله الکترونیک، با استفاده از ابزار تشخیص وسایل الکترونیک، در هنگام ورود به جلسه و نیز در هنگام برگزاری آزمون، بررسی های لازم انجام می شود.

برای شما داوطلبین گرامی، آرزوی موفقیت داریم.

Part A: Listening

Listen and mark your answers to questions 1-15 in the answer sheet. The audio will be played only once.

به فایل صوتی با دقت گوش دهید و پاسخ سوالات 1 تا 15 را در پاسخنامه علامت بزنید. فایل صوتی تنها یک بار پخش خواهد شد.

Section A: Questions 1-11

Short Conversations

A study of Swedish PhD candidates has shown the vast toll that doctoral studies

can take on mental health. The survey adds robust data to discussions about the mental-health crisis in academia.

Studies and anecdotal evidence have

long shown that PhD students can experience immense pressure to publish and to find funding and jobs in a brutally competitive landscape.

The analysis looked at the rates at which all Swedish PhD students were prescribed psychiatric drugs and were hospitalized for mental-health problems. It found that, on average, the longer they were doing doctoral studies the more they needed to access such services. By the fifth year of studies, the likelihood that PhD candidates needed mental-health medications had increased by 40%, compared with the year before study. The study indicates that psychological health issues are “systemic and have been plaguing academia for many decades”, says Wendy Ingram, founder of Dragonfly Mental Health, a global non-profit advocacy group in Bradenton, Florida. “Very few studies have looked at objective measures of mental health,” says Ingram. Using Swedish administrative records from 2006–17, the authors tracked more than 20,000 PhD students before and after they started their programmes. This allowed the team to assess the direct effect of doctoral studies on students’ mental health, says Eva Ranehill, a behavioural economist at University of Gothenburg, Sweden, and study co-author. The preprint, which is not yet peer-reviewed, was posted on the server SSRN.

The researchers compared the rate at which PhD students, people with master's degrees and a sample of the general population accessed mental-health services. Before starting a PhD, students and people with master's degrees used these services at similar rates. But use of psychiatric medicines, such as antidepressants and sedatives, increased among PhD students year-on-year during their studies. This peaked in the fourth and fifth years — the average length of a PhD programme in most countries — then fell in the sixth and seventh years.

Those at highest risk of being prescribed psychiatric medication during PhD studies were women and people who'd taken such medicines before starting their programme. The authors found a similar pattern when they compared PhD students with a sample of the general population aged 18–70. Before beginning their programmes, PhD candidates used mental-health services less frequently than the general population, but by the end of their studies, the rates were the same. The study raises the question of whether academic environments are more intense than other sectors.

46) What is the primary subject of the research discussed in the text?

- A) The academic success of PhD candidates C) The financial burden of pursuing a PhD
B) The impact of doctoral studies on mental health D) The job market for PhD graduates

47) What has been noted about the pressures faced by PhD students?

- A) They face minimal competition for funding
B) They are under pressure to maintain a work-life balance
C) They experience significant stress related to publishing and job searches
D) They have ample support from their institutions

48) What trend was observed regarding psychiatric medication prescriptions among PhD students?

- A) There was a steady decline in prescriptions over time
B) The need for medication increased with the duration of their studies
C) Prescriptions were higher in the first year compared to later years
D) There was no significant change in medication use

49) By what percentage did the likelihood of needing mental health medication increase by the fifth year of study?

- A) 20% B) 30% C) 40% D) 50%

50) What was the comparison made in the study regarding mental health service usage? Between PhD students and

- A) undergraduate students C) faculty members
B) international students D) those with master's degrees

51) What was the average duration of a PhD program mentioned in the text?

- A) Three years B) Four years C) Five years D) Six years

52) How did the use of mental health services change for PhD candidates over time?

- A) It increased progressively C) It remained the same
B) It decreased significantly D) It fluctuated without a clear trend

53) What conclusion can be drawn about the mental health of PhD students based on the study?

- A) They experience a significant increase in mental health problems during their studies
B) They are less affected by mental health issues than the general population
C) Their mental health improves over time
D) They have better access to mental health resources than others

manipulation in the controversial Futsal match between France and Iran, part of Group F of the Futsal World Cup

currently being held in Uzbekistan. The International Football Association has stated it is "aware of complaints filed by several federations." The match, which ended in a 4-1 victory for Iran, has sparked a wave of criticism and suspicion among the participating teams, including Libya, Paraguay, and Thailand, all of whom have requested a formal investigation.

Reports suggest that the conduct of the match was characterized by passive attitudes and an apparent lack of competitiveness from both teams, particularly in the first half, raising suspicions of a potential agreement between the nations. The most contentious moment of the match came when Iran's Salar Aghapour scored the first goal under circumstances that many have deemed unusual. Thibaut

59) What has been the general atmosphere in the venues hosting the World Cup due to the investigation?

- A) Shock and concern
- B) Excitement and anticipation

- C) Indifference and apathy
- D) Celebration and joy

60) How has FIFA responded to the allegations made by various federations?

- A) By dismissing the complaints outright
- B) By changing the tournament rules

- C) By issuing fines to the teams involved
- D) By launching a formal investigation

61) Which country was deemed the top favorite in the tournament?

- A) Iran

- B) France

- C) Morocco

- D) Brazil

John Nash was an American mathematician who was awarded the 1994 Nobel Prize for Economics for his

landmark work, first begun in the 1950s, on the mathematics of game theory. He shared the prize with John C. Harsanyi and Reinhard Selten. In 2015, Nash won (with Louis Nirenberg) the Abel Prize for his contributions to the study of partial differential

equations. Nash enrolled in chemical engineering at the Carnegie Institute of Technology in Pittsburgh before he switched to chemistry and then to mathematics, in which he finally received both bachelor's and master's degrees in 1948. Two years later, at age 22, he completed a doctorate at Princeton University. In 1951 he joined the faculty of the Massachusetts Institute of Technology (MIT), where he pursued research into partial differential equations. He resigned in the late 1950s after bouts of mental illness. He then began an informal association with Princeton, where he became a senior research mathematician in 1995.

While he was still in graduate school, Nash published (April 1950) his first paper, "The Bargaining Problem," in the journal *Econometrica*. He expanded on his mathematical model for bargaining in his influential doctoral thesis, "Non-Cooperative Games," which appeared in September 1951 in the journal *Annals of Mathematics*. Nash thus established the mathematical principles of game theory, a branch of mathematics that examines the rivalries between competitors with

mixed interests. Nash showed that for any finite game, all the players can arrive at an optimal outcome, known as the Nash equilibrium or the Nash solution, when considering the possible actions of the other players. Despite its practical limitations, the Nash equilibrium was widely applied by business strategists. Nash's research into differential equations at MIT led to his seminal paper "Real Algebraic Manifolds," which was published in *Annals of Mathematics* in November 1952. His other influential work in mathematics included the Nash-Moser inverse function theorem, the Nash-De Giorgi theorem (a solution to David Hilbert's 19th problem, which Nash undertook at the suggestion of Nirenberg), and the Nash embedding (or imbedding) theorems, which the Norwegian Academy of Science and Letters described as "among the most original results in geometric analysis of the twentieth century"; the academy awarded Nash the Abel Prize.

Nash's research into game theory and his long struggle with paranoid schizophrenia became well known to the general public because of the Academy Award-winning motion picture *A Beautiful Mind* (2001), which was based on Sylvia Nasar's 1998 biography of the same name. A more factually accurate exploration of Nash's struggle with mental illness was offered by the public television documentary *A Brilliant Madness* (2002).

62) Which mathematical concept did Nash significantly contribute to during the 1950s?

- A) Statistical analysis B) Game theory C) Algebraic topology D) Calculus

63) What was the title of Nash's first published paper?

- A) "Non-Cooperative Games" C) "Real Algebraic Manifolds"
 B) "The Bargaining Problem" D) "Game Theory Fundamentals"

64) What notable mental health challenge did Nash face during his career?

- A) Bipolar disorder C) Paranoid schizophrenia
 B) Major depression D) Anxiety disorder

65) Which film brought public attention to Nash's life and struggles?

- A) Good Will Hunting C) The Theory of Everything
 B) The Imitation Game D) A Beautiful Mind

66) What did the Norwegian Academy of Science and Letters recognize in Nash's work?

- A) His contributions to economics
B) His results in geometric analysis
C) His research in game theory
D) His studies in chemical engineering

67) What was one of the practical applications of Nash's equilibrium concept?

- A) Business strategy
B) Environmental science
C) Political science
D) Social psychology

68) In which year did Nash win the Abel Prize?

- A) 1994
B) 2000
C) 2015
D) 2010

69) How did Nash's mental health issues affect his career at MIT?

- A) He became a full-time researcher
B) He resigned from his position
C) He received additional funding
D) He published more papers

70) What type of mathematical problems did Nash address in "Real Algebraic Manifolds"?

- A) Algebraic equations
B) Differential equations
C) Game theoretical models
D) Statistical distributions

Part E: Writing

Choose one of the following topics and write an essay about it. Write for at least 150 words in no more than 20 minutes.

A) The working week should be shorter and workers should have a longer weekend. To what extent do you agree with this view? Give reasons for your answer and include any relevant examples from your own experience or knowledge.

B) Too much emphasis is given for the education of students. More government money should be spent on free time activities for young people. To what extent do you agree or disagree? Give reasons for your answer and include any relevant examples from your own experience or knowledge.

THIS IS THE END OF THE TEST.
